Solutions Overview

An IBM Business Partner and one of the early Software Service Organization's to be appointed by IBM, Assignment 400 Group (**A4G**) is a leading provider of business enterprise management software, hardware, and service solutions nationwide.

A4G has over 20 years experience providing stand-alone and one-source integrated solutions. If you are a manufacturer, wholesaler, or retailer seeking a competitive advantage through state-of-the-art technology and a dedicated solutions partner, contact A4G today.

What We Do

- Business enterprise software: out-of-the-can or custom
- Computer hardware, peripherals, barcoding and wireless equipment
- Services to support any of the above: individually, integrated into your existing platform, or a new implementation
