

## EXECUTIVE AND MANAGEMENT DASHBOARD

DISPLAY, an eye opener to the status of your company's status. View and manage key corporate indicators critical to the efficient management and running of the enterprise. Track minute by minute indicators, take immediate action and see the response.

Steer your company to meet and surpass monthly sales targets with ease and nip cost overruns in the bud.

### Packaged and Modularized.

DISPLAY is prepackaged and ready to run.

It is modular permitting you to implement all or part of DISPLAY.

### Outsource your Dashboard.

For many companies, outsourcing this application is desired. DISPLAY, optionally with ACT, make it possible for you to outsource this application securely and effectively.

### Reliable, easy to use, affordable.

- Do you have problems knowing what the status of your company is?
- How quickly can you access your information?
- How much time do you spend daily monitoring and managing ?
- Is the software easy to use?
- How long does it take to achieve ROI?
- Empower your People today. Empower the last mile of productivity and fuel business productivity.
- Portalize your legacy applications. Use your business Information today.

### What do I do Next?

Call for a demonstration today.

The on-line demonstration requires just 30 minutes of your time. Installation is fast and easy.

DISPLAY is simple-to-use and deployment is rapid. Installs and configures in just a few hours.

DISPLAY is cost effective and reasonably priced.

Call Darryl Freinkel now to arrange your on-line demonstration.

# Executive and Management Dashboard for BPCS

Executive and management dashboards highlight the status of the enterprise minute by minute. DISPLAY dashboards have been built specifically for each aspect of the enterprise.

- Executive Management
- Marketing and Sales
- Customer Service
- Warehouse Management
- Purchase Order Management
- Production Order Management
- Accounts Payables
- Accounts Receivable

Extend your investment in your IBM System I5/iSeries and BPCS. Easily add DISPLAY portal, the latest information in collaborative solutions.

DISPLAY helps manage the enterprise department by department. Dashboards provide detail at the highest levels and drill down to lower levels such as customer and production orders.

DISPLAY is accessible from any computer anywhere in the world. An Internet connection is required and within seconds you will be connected to your ERP system.

DISPLAY automatically refreshes every 15 minutes. It is packed with features and functions. A4G continually adds new portlets which will be made available in new releases.

There are currently over 60 portlets available, with information for all areas of your company. Implement all or some.

A4G provides implementation, training, consulting and additional development either on-site or remotely via telephone and Webex.

Install DISPLAY on the IBM System I5/iSeries or on a Windows Server 2003/2000 with WebSphere Portal or Workplace Services Express.
